Stavely can at least be thankful that the elevator fire didn't happen on a day like Tuesday or Wednesday. A fire in Champion's elevator row with a southwest wind would likely mean good-bye to the town, so let's be careful.

We have a complete line of garden tools, all at prewar prices too.

Our greetings and best wishes to this week's newly weds, Robt. and Mrs. Doyle.

Make it worth while saving on your spring paint job by letting us quote you prices on the famous Marshall Wells line, it's tops in quality too.

We have heard so much comment on the opening up hours of some early risers that we thought it would be a good idea to go out and wake up a few farmers after Monday's dance, and we are not just sure that Edith liked it either, but it seemed like a good idea at the time.

We have good buys in a 1940 Deluxe Sedan, 1935 Sedan, 1931 Sedan, all Fords, a 1928 Sedan, a 1932 light delivery, both Chevrolets, all are priced to sell.

They're picking up pieces. With dustpan and rake— He grabbed a silken knee When he should have grabbed a brake.

Don't forget that the Satin Glo paint sale is a sale and definitely off next Saturday nite.

Jerry Fath is relieving in the Pool elevator at Brooks for six weeks.

Wing pumps, barrel pumps, hose, tractor pails, tractor funnels, spark plug pumps, water tire gauges, calcium chloride and last but not least Wm. Penn and North Star oils and greases, everything for the tractor and we are willing and anxious to be "Your Hardware Merchants."

Champion—Alston Champion—Harmony Tangle in Softball

The Champion girls softball team tangled with the Harmony Ten and showed a class of game hardly expected with so little practice. From the very beginning the Champion girls showed a definite superiority of play and continued this class of game, ending up well out in the lead.

On April 9, the high school boys and girls mixed softball team journeyed to the Alston school and really showed the Alston club how the game should be played. The good pitching and clever backing of the Champion club ended up in an Alston deficit of 24-10.

er started to work on the land but with the early spring this was not possible, with the result that the farmers could not have "one last fling" before starting to work. The president, J. D. Federal Government's Proposed Wheat Policy For 1941

While final details of the Federal Government's Wheat Policy for 1941 are not available, we believe the following summary of the Government Policy issued by Sanford Evans, Statistical Services, Winnipeg, will be of interest and assistance to grain growers:

"\$4.00 an acre will be paid for land in summerfallow over and above the number of acres in summerfallow in 1940.

"For each acre sown to coarse grains or grass in 1941 over the acreage for such crops in 1940, \$2.00 will be paid. An additional sum of \$2.00 an acre will be paid on lands which having been sown to grass in 1941, or to rye in the autumn of 1941, are in grass or rye on July 1, 1942, notwithstanding that such land may have been summerfallowed or sown to coarse grains in 1941.

"Provision is made that on farms where the last wheat crop was in 1939, the acreage for that year or 60 per cent. of the cultivated acreage in 1940, whichever is the lesser, maybe accepted as the basis for wheat reduction in 1941.

"Where there was wheat in 1940 in excess of 60 per cent. of the cultivated acreage, and in 1939 on less than 40 per cent. of the cultivated acreage or vice-versa, the average for the wheat acreage for 1939 and 1940 may be accepted as the basis for reduction.

"To be eligible for payment under the wheat acreage reduction programme, the farmer must make application not later than May 31 to the secretary of the municipality in which he resides or, if the area is unorganized, to the provincial government.

"The preamble to the regulations established by order-in-council set forth that wheat deliveries for 1941-42 should be confined to 230 million bushels and the quantity to be delivered should be based on 65% of 1940 acreage.

"This is generally accepted as meaning 9,000,000 acres should be withdrawn from wheat and utilized for summerfallow, coarse grains and for grasses."

exchange of seeds and slips. Mrs. J. Cain gave a very interesting talk on the varieties and care of flowers and shrubs. The next meeting will be held at the home of Mrs. Voisey.

SAVE BY BUYING

We again call attention of our readers to the necessity of purchasing, regularly, war saving stamps or certificates. Yes the war can be won without your help, the Government can take your money but we do not want to have it that way. All good citizens wish to have a part in the preserving of their freedom.

We do not ask you to stop buying necessities of life, to defer the repair of farm machinery, or the painting of that house, the purchase of the personal clothing etc. in order to buy stamps, but we do ask you to set aside so much each week for the future.

During the past week a young man, a typical Canadian youth, well educated, boasted to the publisher of this paper that he had spent \$18 from Saturday until Monday on a good time. He is working in a war factory and making good money, but apparently does not appreciate the fact that the war is not going to last for ever, thank God, and that he will have no opportunity to earn big money. Indeed there will be a depression. After all the warnings given to the Canadian people the Government will not dole out relief to those found in such conditions. The state does not owe people a living. Buying war certificates now, help the country and are a guarantee against just such depression which will come as sure as the sun rises each morning. Let us prepare for the future, and at the same time back the boys who are fighting for us.

RELIGION AND PUBLIC LIFE

In a recent issue of the new magazine, The Christian Advocate, official paper of the Methodist Church in the United States, Mr. Cordell Hull, Secretary of State in the Roosevelt cabinet, makes a strong appeal to the churches of that country. What he says of the need of the United States is true of Canada. After describing the forces of evil in the world and the need of the spiritual rebirth in the nation, Mr. Hull continues: "Our churches, particularly, have an exceptionally important role to play in this work of spiritual rebirth. The terrible misfortunes which are being visited upon mankind have been the result of a dangerous deterioration of standards of personal and of national conduct. We desperately need today a revival of religious fervour, a renewed humility before God in support of wholehearted adherence to

high standards of individual and group behaviour."

We are accustomed to hear language like this from religious leaders but it is frequently discounted when coming from professional church men. It comes with fresh emphasis when a man, high in the nation's councils, calls upon the Church to

assume new responsibilities for the spiritual welfare of the State. This is a challenge which the Church will neglect at its peril.

Caragana had the largest sales in Canada among ornamental shrubs for outdoor planting, according to the annual statistics of nursery stock, 1940.

Production of butter in Canada for the months of January and February combined of 1941 showed a 10.4 per cent increase above the corresponding period of 1940. The 1941 increase, says the Current Review of Agricultural Conditions is probably the result of a substantially higher price being paid for butterfat.
